“Fully adjustable and foldable standard rehab-stroller”

TOM 4 Xcountry - popular fully adjustable rehab-strollers for children with special needs is based on improved design of the TOM-line undercarriages with 200/300 mm wheels, that enables usage of the products in town and as well as for outdoor activities.

Fully foldable spring-suspensioned undercarriage is produced from lightweight thin-walled tubes with powder coating finish. Undercarriage includes new chassis to seat interface, new brake-system, ergonomically shaped height adjustable handlebar. Redesigned seat-unit is detachable, reversible and fully size and position adjustable. It includes as well flexible system for attaching of fixation devices and accessories. Seat shell is covered by fully detachable soft padded textile upholstery in fashionable design. Easy handling is ensured as well by the stroller's fully foldable frame even with attached seat. The correct usage of the product should be consulted with a seating specialist.

The product corresponds to the newest EC standards as well as hygienic, technical and safety requirements.

wide variety of fixation devices and accessories as an optional equipment (ask for accessory actual list and leaflet)

SUCCESSFULLY CRASH TESTED

The product had been successfully crash tested and fulfilled all the requirements of EN ISO 7176/19.

It enables to use the rehab-stroller not only for a common duty, but as well as for the transportation in specially adjusted motor vehicles, equipped with the anchoring points and equipment.

FLEXI-pads set

Set of side width-defining pads enables very flexible width-adjustments of the seat in accordance to the present requirements of user by maximum of 50 mm. FlexiPads set consists from side pads of different width and density, 6 pieces in total.

wide flexibility, easy adjustments, user friendly manipulation with seat-unit and undercarriage
